ARTWORK

ARTWORK:

Good artwork is essential to the production of quality printing. **All quoted ad prices are based on Camera Ready Artwork.** To clarify, photocopies, letterhead, business cards, and / or faxes are not considered camera ready artwork and do not produce a quality print. **Camera Ready Artwork** is clean with sharp lines and can include:

- Camera Ready Artwork
- Emailed artwork if it is
 - Vector based art (which should be submitted in EPS file outlined with appropriate fonts.)
 - Photoshop files (which should not be lower than 300 DPI at final size.)

Additional Art charges may be incurred if the artwork you have is a bitmap image (.bmp, .jpg, .gif, .tif), is fuzzy or unclear, necessitates cleaning, requires adding text to a logo, or involves combining two or more pieces of artwork.

ART CHARGES:

If additional work is needed to format the art, the Phoenix Chamber of Commerce art department is equipped to perform these modifications at a rate of \$50.00/hour or by quotation. However, simple Vectorizing conversion is a flat fee of \$25.00. Art charges will be assessed according to difficulty and time necessary to recreate quality art. When complete, you will be provided with a copy of your artwork for future use.
